

5 PhD positions available

MOMbrane: The multifaceted functions and dynamics of the mitochondrial outer membrane (MOM)

We are looking for highly motivated candidates holding a Master degree in biology, biochemistry, molecular medicine, cell biology, biophysics, or a similar program.

The PhD students will join our DFG funded Research Training Group (RTG):

The aim of our RTG is to achieve comprehensive understanding of the structure, function, regulation, and biogenesis of the mitochondrial outer membrane. We employ a multidisciplinary approach including disease models, molecular cell biology, proteomics, biotechnology, and biophysics.

We offer:

- Highly interdisciplinary research
- Cutting-edge technologies
- Structured qualification program including workshops, retreats, soft-skill courses, internships, international co-operations, conferences and many more
- Salary E13 (65%) for at least 3 years

For additional information please refer to our homepage:

<https://www.mombrane.de/>

Deadline for applications: February 10th, 2024.

Starting date: April-May 2024

Please send your applications including your research preference, the usual documents and the names of two referees in one pdf file to

grk2364-application@mnf.uni-tuebingen.de
