

INTERNATIONAL & EUROPEAN STUDIES

Study and explore Europe in our
short-term programs!

Academic courses on Europe and the EU
at the University of Tübingen

GREETING FROM THE PRESIDENT

Welcome to the International & European Studies (IES) Program at the University of Tübingen. In times of increasing global interaction, we are faced with challenges which affect almost every region in the world. Thus, it has become crucial for all of us to understand how intercultural dynamics shape the lives of people today. Knowledge about how states cooperate and about how companies do business with each other across borders, for example, can help us to gain valuable insights into globalization processes. Our intensive English-taught short-term programs in International & European Studies give students from all over the world the chance to study Europe and the European Union as an example of how nations and individuals work together.

The University of Tübingen – one of Germany's most prestigious universities – is located in the heart of Europe, in a region of Southern Germany. It is the perfect setting for students to focus on European politics and history, business, law and culture. In seminars, lectures and excursions, IES students will explore how European institutions have developed and how they are operating today.

The University of Tübingen combines a tradition of more than 530 years with internationally renowned state-of-the-art research. About 28,300 students are enrolled at Tübingen. In recent years, both teaching and research at the University have become increasingly international. Numerous student exchanges, research collaborations and partnerships with universities worldwide help us to attract the best students, scientists and scholars from all over the globe.

I hope that you will consider the excellent opportunity that the IES programs with their rich academic and cultural components have to offer. They will not only broaden your horizons, but also prepare you for further studies in an international context or for a profession in a globalized world.

It would be a pleasure to welcome you as an IES student at the University of Tübingen soon.

With best wishes,
