

You are passionate about Data Science? You love to work with Python and R, and you are interested in shaping the way that future Data Science students learn how to use Python and R for data analysis? Then we would love to hear from you because we are looking for a

Student Assistant (Studentische Hilfskraft (m/w/d)) in Data Science approx. 25h/month

What we are looking for

- You are an above average student at the School of Business and Economics or in a related field with a strong connection to Data Science.
- You have good knowledge of Python and R and you have good experience in data analysis including Machine Learning methods.
- You are a flexible and reliable team player, and your work style is well structured and very accurate.

What you can expect

As a student research assistant, you'll play a vital role in our dynamic team. Here's what you can look forward to:

- **Collaborative Research:** Dive into exciting research projects alongside experienced professionals. You'll contribute to data analysis, literature reviews, and experimental design.
- **Coding Support:** Sharpen your programming skills! You'll have the opportunity to work with both R and Python. Whether it's writing scripts, developing algorithms, or automating tasks, you'll be hands-on with real-world applications.
- **Learning Environment:** We believe in continuous growth. Expect mentorship and exposure to cutting-edge methodologies. Your contributions matter, and we're invested in your development.
- **Flexible Schedule:** We understand your academic commitments. We offer a flexible work schedule that aligns with your coursework and exams.
- **Networking Opportunities:** Connect with professionals and build your professional network. Your time here will open doors beyond the classroom.

If these descriptions appeal to you, we are looking forward to hearing from you. Please send the usual documents (letter of motivation, CV, Transcript of Records) in one single pdf file before **June 2, 2024** via e-mail to marketing@uni-tuebingen.de.

We are looking forward to hearing from you!
